

SSL Buckets

Both 68 inch and 74 inch width skid steer buckets include bolt-on side cutting edges and are available with standard floor or long floor and cutting edge or teeth.

Available for: SSV65/SSV75 (74 INCH ONLY) and SVL75-2 (74 INCH ONLY)

Rock Bucket

Available in widths of 66, 72, and 78 inches, these long lip rock buckets are ideal for picking up large gravel and rocks while allowing finer material to fall through the 3 inch spaced tines made out of high grade strength grade 80 material.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Pallet Forks, Standard

Pallet forks have uses in a wide variety of applications — farming, ranching, construction, nurseries, campuses, theme parks, salvage operations, warehouses, lumber yards, large or small retail outlets, etc. They have the capability of quickly and conveniently turning your Skid Steer loader into a forklift to expand your material handling capability. Available in capacities of 4500 or 5500 lbs with 48 inch forks may be adjusted from 8 to 44 inches width and the forks. The frame includes a skid resistant step.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Auger

Augers can dig holes from 9" to 36" in diameter and up to 48" deep or deeper with available auger extensions. With different augers available — 7 double flight augers from 9" to 36" and 3 tree augers in 24", 30", and 36" sizes. Available with round or hex output shafts.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Angle Broom

Hydraulically Powered Angle Brooms are ideal for construction site cleanup, road maintenance, light snow removal on paved surfaces, and cart path maintenance. They come in 72 or 84 inch (working width) with optional poly or wire brush and hydraulic or manual angle adjusters.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Grapple-Claw

Claw Grapples make quick work of large jobs, and can be used to rake, dig, and move rocks, trees, brush, and construction debris without picking up dirt. The compact design minimizes weight while preserving lift capacity. Available in 74" or 86" widths, these grapples are made from AR400 high tensile strength material.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Grapple-Rock

Rock Grapples are designed to do the dirty work, moving volumes of material quickly and efficiently. The grapples feature dual hydraulic cylinders that can close at various gaps to handle irregular shapes. The bucket is designed with 3" spacing between the teeth to allow small rocks, soil, and other debris to be sifted, leaving the larger material locked in its jaws. Available in 66, 72, and 78 inch widths.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Grapple-Manure

A must-have tool for hay moving, barn cleaning, or general yard maintenance. Available in widths of 66, 72, and 78 inch with 8 to 10 spears, this grapple will make chores around the farm a breeze.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Power Rake

Soil surface preparation tools for landscapers and turf care professionals, capable of grading, leveling, shaping, cultivating, renovating and pulverizing various types of soil surfaces. They are also capable of raking or windrowing soil, rocks, and construction site debris. The 72 inch working width is a good choice for smaller or "space restricted" landscaping and turf renovation jobs, while the 90" model is perfect for large jobs such as golf courses, sports areas, or campuses.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Snow Pusher

Snow Pushers are designed to push snow straight ahead without leaving windrows or damaging the pavement below. They mount using the universal Quick-Attach plate and feature an 8" rubber wear edge. The rubber eliminates damage to the pavement or lot striping on most surfaces while removing slush and snow. They are also available with steel edge with working widths up to 12 feet. All models come equipped with AR400 skid shoes that are, adjustable, reversible, and replaceable.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Snow Blade

Front-mounted Trip Edge Blades are ideal for landscapers, construction companies, farmers, ranchers, homeowners, school systems and municipalities. These blades are primarily designed for snow removal operations in the forward operating mode only. They are also capable of pushing light aggregate materials such as pea gravel or livestock feed such as shelled or ground corn and silage. Available in widths of 96 or 108 inches with steel or poly edges.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Rotary Tiller

Forward rotation Rotary Tillers are great for seedbed or garden plot soil preparation and are available in widths from 62 or 74 inches. They are used in landscaping, nurseries, gardens, and light commercial applications. Sideshift capabilities with through-gearbox shaft keeps the driveline running straight and the formed and reinforced rear deflector leaves a nice smooth finish. Operators can control tilling depth with various skid shoe settings to achieve the results desired.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Stump Grinder

A great choice for contractors, landscapers, and forestry departments, this Stump Grinder turns large stumps into small chips. It features durable carbide teeth mounted to a 1/2" cutting wheel that spins up to 1,100 rpm. Fully controllable from inside the cab, this unit has a maximum cutting arc of 55 degrees and depth of 8" below ground.

Available for: SSV65/SSV75/SVL75-2/SVL90-2

Tree Puller

This Tree Puller removes shrubs, saplings, and small trees; pulling them from the ground, roots and all. The serrated teeth make this an ideal tool for removing steel and wood fence posts around the farm or on the job too. The 10" jaw opening allows you to grasp and pull a wide range of trees and posts. With the STP15, chances for regrowth are eliminated without the use of chemicals because you remove the root with the added benefit of minimal ground disturbance.
