## Grand X Cab

Discover freedom from within. The M6 boasts one of the largest cabs in its class. We removed the center pillars and rounded the glass increasing both interior height and width to provide a more spacious feel. Wide-opening doors provide easier access while the unobstructed ceiling and fully flat floor guarantee more head- and legroom for a higher level of comfort even during long hours behind the wheel.

## Magnificent Field of View

The Grand X provides a wide and virtually unobstructed field of view from every angle thanks to the roomy rounded cab with no center pillars. The cab has also been raised to provide a high viewpoint. A bottom-hinged windshield wiper enhances visibility by wiping the lower glass area, right up to the front tires. Plus, the standard-equipped under-hood corner-post exhaust pipe is specially placed to remain out of the way and give you a clear view.

## Wide Rear View

To help you perform jobs efficiently and safely, the lower rear panel has been replaced with glass. You'll have a clear view of what's going on behind you.

## Tilt and Telescopic Power Steering

Tilt and telescopic steering offers the ideal driving position while power steering makes steering easier even in rough terrain.

## Deluxe Air-Ride Seat

All M6 Series tractors are equipped with a reclining and automatic height and weight control Air-ride seat that's especially designed to absorb shock and reduce operator fatigue.

## Deluxe Heating and Air Conditioner

The rounded cab and strategically placed ventilation ducts optimize airflow for year-round comfort.

## Roof Panel

The M6's roof panel offers a clear view above making it especially handy when raising the front loader. The roof is also tilt adjustable for fresh-air ventilation.

## Instructor's Seat (Optional)

Kubota also offers an optional instructor seat, which is useful when giving tutorials to new operators. Spaciousness is still maintained even with the seat unfolded.
