

Grand L60 Series

CAB Features

L3560 - L4060 - L4760 - L5060 - L5460 - L6060

Grand Cab

Step inside the Grand L60 cab and discover spaciousness beyond expectation. Interior space has been increased by approximately 20 percent over previous model, and glass has been used extensively to minimize blind spots for a grander view of your surroundings. You also get wider opening doors for easier cabin entry and exit, a deluxe swivel-type suspension seat, more legroom, ample headroom and abundant storage compartments to store all your necessities and manual.

Air Conditioning with Internal Recirculation and External Air Ventilation

The cab's deluxe air conditioner/heater can increase cooling, heating and air ventilation for greater climate control. You can switch between internal recirculation and external air ventilation: cool your cab quickly and thoroughly with the internal recirculation mode and the air in the cab will stay fresh.

New IntelliPanel™

Stay up to date on the status of your Grand L60 tractor at all times with the IntelliPanel™. Combining an analog tachometer, temperature gauge and fuel gauge, a large-screen dot matrix digital panel, and upper and lower indicator, the IntelliPanel™ keeps you informed on the tractor's status including maintenance at a single glance.

Standard Indicators

The IntelliPanel's standard indicators display the hour meter, trip meter, fuel consumption, PTO revolutions, HST information, particulate matter accumulation and maintenance information on the large and easy-to-read screen. The information can be switched easily with button operation. Furthermore, warning indicators, scheduled service alerts and DPF regeneration are also indicated on the panel to keep you informed at all times.

Cruise Control

To keep your working speed constant, simply adjust the cruise control switch to your desired speed- and go.

Upper Front Side Lights Switch

The upper front side lights switch is close at hand when you need extra visibility to the sides.

Column-type Combination Lever

This new combination and switch allows you to operate the headlights and indicators with car-like ease.

Worklights

In addition to the lower forward headlights, the upper front side lights provide a wider field of view when operating in the dark or in enclosed buildings like the shed or barn.
