

Grand L60 Series

Implements

L3560 - L4060 - L4760 - L5060 - L5460 - L6060 Backhoe

Kubota Grand L60 Backhoes (BH77/BH92)*

Choose from our BH77 backhoe, a great solution when you're working in small or restrictive areas. It offers easy attachment and detachment and can dig to depths of 7.6 feet. Or our new BH92 backhoe which boasts a new curved boom, designed for digging deeper. This versatile backhoe features a standard thumb bracket for adding an optional hydraulic or mechanical thumb.

**BH77 is available on L3560 Rops models only. The L3560 model must be equipped with LA805 loader to install BH92 backhoe. (Cannot be installed with LA555 loader.)*

Wide Legroom

Our full-flat deck gives you ample legroom. This makes operation more comfortable and mounting and dismounting the tractor easy.

Hydraulic and Mechanical Thumbs*

Our optional auxiliary hydraulic control valve and hydraulic thumb give you greater versatility when working with the backhoe. The BH77 and BH92 are equipped with a built-in thumb bracket as standard equipment. An optional six-position mechanical thumb is also available.

**Optional hydraulic thumb is only available on BH92*

Quick Attach/Detach

The less time you spend between jobs, the more productive you become. The BH77 and BH92 are equipped with a quick attach/detach mounting system. This makes attaching or detaching the backhoe a snap.

Quick Coupler

With our optional quick coupler, changing buckets is a snap. This is the option for those who do a lot of bucket work and frequently change bucket types.

Curved Boom

The curved boom provides enhanced visibility, less repositioning with more modern styling.

Protected Hoses

The hydraulic hoses are neatly tucked inside the backhoe to protect from wear and tear.
