

Cleaner Emission Diesel Engines

The B50 series diesel engines are built for greater power with cleaner emissions. The B3350's liquid-cooled E-TVCS (Emissions - Three Vortex Combustion System) engine delivers increased power and high torque for all the tractor strength you need, while significantly lowering emissions. The Diesel Particulate Filter (DPF) Muffler reduces emissions to make it compliant with the latest Tier 4 Final emission regulation.

Kubota HST Transmission

Clutch-less for easy operation, our proven 3-range transmission provides optimal speeds to match your job. Choose Low range when you need extra power at low speed. Mid range for normal operations, and High range for transporting place to place. In addition, the brake pedal is positioned on the left side.

3-Point Hitch

The capable PTO horsepower and a Powerful Category I 3-point hitch ensures easy attaching and detaching of implements, such as a rotary cutter, box blade and finishing mower. The intuitive clutch-less PTO engagement simplifies operation.

*Shown with optional telescopic lowerlink ends, stabilizer, ratchet-type lift rod.

Hydraulic Power Steering

The power steering is hydraulically controlled for comfortable and nimble handling to reduce fatigue during prolonged operation.
